The agent 800 is a dual ear, high usage, noise cancelling office/call centre headset

Headset Benefits

The agent 800 is designed for users making and receiving a high volume of calls. Utilizing the latest in noise cancelling technology, this headset is at home in a noisy environment, but equally as effective in a quiet office or call centre. The patented lightweight and robust design offers comfortable and flexible wearing, coupled with excellent sound and audio quality.

agent has become one of the fastest growing headset brands in the UK. Our cost effective, high quality headsets have enabled call centres and offices to experience higher levels of productivity and efficiency, allowing them to provide a better customer experience.

Headset Features

The diagram shows a black dual-ear headset with a boom microphone. Dashed lines and arrows point to specific features: the adjustable headband, the rotatable earpieces, the 270-degree rotation of the microphone, and the noise-cancelling microphone. The text 'agent headsets' is visible on the side of the headband.
