USB Buddy training adaptor

USB Buddy training adaptor (HADUSB)

USB technology will not allow you to simply connect together two VOIP/softphones. The USB Buddy overcomes this limitation. Simply plug two standard-wired headsets into the USB Buddy and connect the USB Buddy into your PC USB port; the USB Buddy auto-connects and away you go.

Features

- Enables side-by-side training for offices using softphones (VOIP telephony)

- Compact and stylish unit

- Push to mute for Trainer and/or Trainee

- Ideal for small VOIP conferences

- Easily identifiable muting function, to avoid embarrassing accidents!

- Also useful as USB adaptor for all standard headsets, with mute and training facility

Specifications

- Colour: black

- Weight of product: 46g

- EAN number: 5055386500212
